

The Therapy of Choice

Drugs Verses Herbal Medicines

CANSURVIVE CENTRE MALAYSIA
A NON-PROFIT CANCER CHARITY ORGANIZATION

Dr. Ju-Boo Lim

Dr. Ju-Boo Lim has a post-graduate qualification in FRSPH FRSM. Having been a Senior Medical Researcher in the Institute for Medical Research, Ministry of Health, Malaysia, he is now the Special Medical and Science Adviser of Dynapharm Pharmaceutical and Herbal Medicine Group. He has an in-depth understanding of the complexities that arise from the use of drugs in the pharmaceutical world and herbal medicines.

He believes that a doctor must have training and knowledge in both areas to effectively treat his patients. Some of the topics that Dr. Lim will discuss will range from the role of the doctor in the choice of therapy, the use of fast acting emergency drugs as opposed to natural medicines and the fact that medicines don't provide a cure, to the wonderful healing body, multiple systems in medical education and the innate ability of the body to heal itself.

CANSURVIVE & IT'S PURPOSE

Cansurvive is a support and information service for those who are challenged with cancer. Not just information and support, but a service that offers a greater awareness of the benefits of holistic, non-invasive cancer therapies, nutrition and diet, as well as orthodox treatments; what is available and where to access them. It is a window of light into the world of healing, where the word **"Terminal" is a challenge, not a death sentence.**

Date : 17th December 2016
Time : 2:00 pm to 5:00 pm
Venue: 6th Floor, Block 2,
VSQ@PJ City Centre,
Jalan Utara Section
