

WORKSHOP

Role of Hypnotherapy in Healing

CANSURVIVE CENTRE MALAYSIA BERHAD

SYNOPSIS

"Thoughts are always followed by energies. When there is an illness or disease, its because of the energies being blocked in the body. This is caused by our thoughts which were framed from the time we were born up to our current age. We are not a product of our own thoughts but that of others, eg: our parents, teachers, culture, religion. Each belief system in us for created or framed for us. As such, we knowingly & unknowingly express our actions through these conditioned thoughts that were never ours in the 1st place. And it is from this conditioning that our medical & emotional challenges appear in our lives."

This hands on workshop is being conducted to help you discover your true self & understand yourself better. It will provide you with a powerful tool to access your inner self & make the changes you wish to heal yourself through Hypnotherapy. Hypnotherapy works on your subconscious mind through positive suggestions which in turn clears all the negative thoughts that you are having at an unconscious level.

(Please bring your own yoga or exercise mat & a small pillow as well as an open mind. You will be pleasantly surprised.)

It is a window of light into the world of healing, where the word "Terminal" is a challenge, not a death sentence.
