## CANCER: What now? Is there another option?

### SYNOPSIS

The standard recipe of present day cancer treatments comes in different combinations of surgery, chemotherapy, radiotherapy and oral drugs of some sort. This is sometimes referred to as slash, poison and burn method of treatment. Many people say the treatment is worse than the disease and many patients died because of the treatment rather than their cancer. Some authors even went to the extent of saying that present day cancer treatment with highly toxic drugs is crude and is probably the most barbaric in modern medicine.

Those who have undergone these treatments may understand what I am saying. Those who have not undergone them yet may not but the observant ones may have heard or learnt about it from the experiences of others. These patients now want to know if there is another option for them. *My answer is: Yes, there is another option.*

### SPEAKER

Dr. Chris K. H. Teo, Dip. Agr. (M), B. Agr. Sc. (Hons.)(M), M.S, Ph.D. (Hawaii), Dip. Hom., was formerly a Professor of Botany at Universiti Sains Malaysia.

He retired from this position after teaching and research at that University for 26 years. He has written numerous research papers and more than a dozen books.

He was a fellow of the Matsumae International Foundation, fellow of the Alexander von Humboldt Foundation, and also was a consultant to UNDP-OPS-Bhutan Government.

### CANSURVIVE & IT'S PURPOSE

Cansurvive is a support and information service for those who are challenged with cancer. Not just information and support, but a service that offers a greater awareness of the benefits of holistic, non-invasive cancer therapies, nutrition and diet, as well as orthodox treatments; what is available and where to access them. It is a window of light into the world of healing, where the word "Terminal" is a challenge, not a death sentence.

Dr. Chris K. H. Teo

**Saturday**  
**11th May 2013**  
**4.00 pm - 6.00 pm**

**Venue :**  
**Malaysian Association**  
**For The Blind, Jalan Tebing,**
