

NUTRITION AND CANCER:

New Lamps for Old in Cancer Prevention and Treatment

Saturday, 23rd May 2015 | 4:00 pm to 6:00 pm
The Malaysian Associations Of The Blind, Brickfields
Registration: FREE

SYNOPSIS

"The speaker shall introduce to us recent advances in food, nutrition, immunology, molecular medicine, and in cellular chemistry where scientists "recently" discovered several dozen cancer blocking agents present in a mixed plant-based diet. The identity of many more anti-cancer foods is now being discovered and added to this list.

That's where new light and hope in future cancer management flowers in bloom giving hope to millions of people, both in prevention and in future treatment.

These cancer- blocking natural chemicals of very low to very high molecular weights bioavailability are found in many fruits and vegetables where their bio-dynamics are entirely different from anti-oxidants kinetics scientists already knew over 3 decades ago. This is a new and recently discovered area, serving as a springboard towards a giant leap for future cancer treatment".

SPEAKER **LIM JU BOO** B.Sc. PG Dip Nutr MSc MD PhD FRSPH FRSM

"Dr Lim received his undergraduate, postgraduate, and doctorate degrees in Clinical Science, Nutrition, in Food Quality Control and in Medicine from the Universities of Calcutta, London, at Cambridge and at Reading in the UK.

He subsequently worked in cancer research at the Massachusetts Institute of Technology (MIT) and also was a Medical Research Officer at the Institute for Medical Research from 1968 - 1994"

REGISTRATION

Kindly reserve your seats by the following options:

SMS your NAME and EMAIL ADDRESS to

017-881 2287

or

send an **email** to **ucansurvive@gmail.com**

with your NAME and HANDPHONE NUMBER.

CANSURVIVE & IT'S PURPOSE

Cansurvive is a support and information service for those who are challenged with cancer. Not just information and support, but a service that offers a greater awareness of the benefits of holistic, non-invasive cancer therapies, nutrition and diet, as well as orthodox treatments; what is available and where to access them. It is a window of light into the world of healing, where the word "Terminal" is a challenge, not a death sentence.

Organised By: CANSURVIVE CENTRE MALAYSIA BERHAD (903023-M)
