

CANSURVIVE CENTRE MALAYSIA BERHAD

Cancer, how it begins, how it grows & how we can protect ourselves.

SYNOPSIS

Most people cannot afford Cancer treatment from the private hospitals because the cost is so high. In government hospitals it is "touch and go". It's luck ! They have time only for the 5 million government employees. The public can only be accommodated if there is place.

However by adopting very easy to understand and carry out habits, everyone can help themselves. This Discussion will help people to understand how to stop this Cancer Epidemic.

SPEAKER

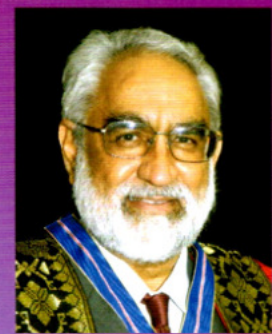

Dr. Ludher has had a varied experience as a medical practitioner. Other than serving in government hospitals (Senior Medical Officer in Assunta Hospital), he has also served in the Malaysian Armed Forces in areas of active conflict.

Through his practice group, Ludher Clinic, he has been practising as General Practitioner and Family Medicine Physician in Malaysia and Australia for the last 33 years. He currently runs a specialist clinic in My Life Centre in Section 8, Petaling Jaya specialising in the treatment of chronic diseases and management of cancer. His wish is to dedicate his time, energy and resources to helping alleviate suffering among the people from lifestyle-induced diseases.

CANSURVIVE & IT'S PURPOSE

Cansurvive is a support and information service for those who are challenged with cancer. Not just information and support, but a service that offers a greater awareness of the benefits of holistic, non-invasive cancer therapies, nutrition and diet, as well as orthodox treatments; what is available and where to access them.

It is a window of light into the world of healing, where the word "Terminal" is a challenge, not a death sentence.

Capt. (Rtd.) Dr. Inderjit Singh Ludher

Saturday
20th July 2013
