

CANSURVIVE CENTRE MALAYSIA BERHAD

Detoxification - Colon Cleansing

SYNOPSIS

Colo-rectal cancer is the top spot as the number 1 cancer killer in the world. But the good news is that early detection can help to cure the disease.

Overall in absolute numbers, 2647 people treated for colo-rectal cancer between 2005 and 2010 have died. The figures which are collated every 5 years, are expected to rise significantly. Doctors said genetic factors play a part in causing colo-rectal cancer. Anyone with a family member who has contracted the cancer has one in 17 chance of getting it. The odds are one in six if two family members have the disease and one in two if three family members have it. Another important cause is a diet of meat and fats.

Generally, sources of fat and meat, whether smoked, barbecued or canned, may contain carcinogens or chemicals converted into cancer causing agents in the body. Colon-Cleansing is one of the best preventive measure to fight against this cancer.

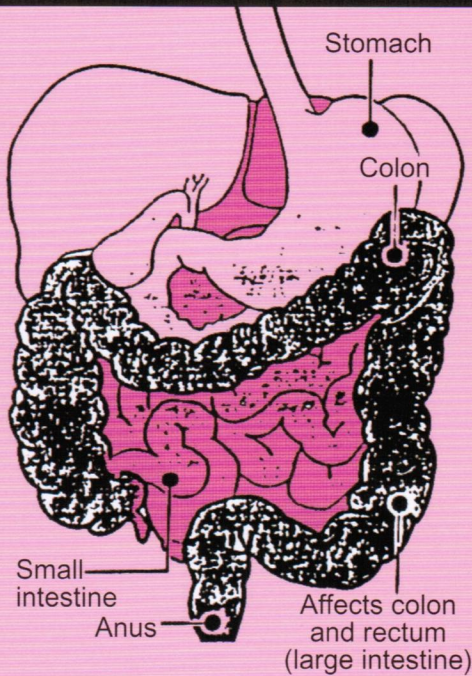

SPEAKER

Dr. Jannie Chew was born in Singapore and raised in Malaysia. She received her nursing training in England. Upon her returned to Malaysia, she worked as Night Sister at the Assunta Hospital in Petaling Jaya, Selangor in 1966/67. Her nursing experience developed her companssion for ill people. Her compassion also led her to explore non-invasive, non-toxic ways to improve health and speed up the healing process. In 1984, she went to United States of America to study with the late Dr. Bernard Jensen, a teacher in the field of naturopathic medicine. Her association with Dr. Jensen deepened her understanding about health and diseases and she became a practitioner of his methods in Asia.

CANSURVIVE & IT'S PURPOSE

Cansurvive is a support and information service for those who are challenged with cancer. Not just information and support, but a service that offers a greater awareness of the benefits of holistic, non-invasive cancer therapies, nutrition and diet, as well as orthodox treatments; what is available and where to access them. It is a window of light into the world of healing, where the word "Terminal" is a challenge, not a death sentence.

Colo-rectal cancer : where it starts

Dr. Jannie Chew
