

9th Malaysian International Conference on Holistic Healing in Cancer 2019

CANSURVIVE CENTRE MALAYSIA
A NON-PROFIT CANCER CHARITY ORGANIZATION

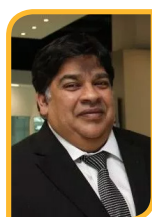

In collaboration with:

CHALLENGE CANCER : TRUE LIFE STORIES OF CONQUERORS

Many cancer survivors describe the process of living with and beating cancer as a life-changing experience. It is not uncommon for survivors to use the experience as opportunities for creative self-transformation into a "better person" or as motivation to meet goals of great personal importance, such as climbing a mountain or reconciling with an estranged family member. This process of post-traumatic growth is called benefit finding. Cancer survivors often have specific medical and non-medical needs related to their cancer experience.
