ORIGIN POINT THERAPY (O.P.T.)

A Self-Help Modality To Reduce Inflammation and Boost the Immune System

Holistic Healing Workshop | Series No. 4

Background of Origin Point Therapy:

Origin Point Therapy (OPT) is neither Western medicine nor Chinese medicine. Yet, it is an easy to learn and simple way to deal with diseases and disorders. OPT was founded by **Dr. Chang Chao Han**, a Taiwanese TCM practitioner for 35 years. While treating his wife who was diagnosed with breast cancer in 2002, he discovered that most diseases and disorders were caused by bodily (nerve) injury at certain locations (like a switch) in the body which he named, **Origin Points (OP)**. Manipulation of the injured Origin Points caused a **release of the blockages** to enable a smooth flow of the energy (Chi) and blood to carry out the natural healing and self-repair process for anyone afflicted with acute or even chronic illnesses. In 2003, Dr. Chang established an **OPT Foundation** in Taiwan and introduced his technique in Taiwan, China, Vietnam, Singapore, Malaysia, America, Canada. There is detailed information and practical videos (Mandarin) about OPT on its well-maintained website: <http://cch-foundation.org>

Synopsis:

Origin Point (OP) means each pain has its original pain point which is located at a **different location** from the pain region that you are suffering. For example, when you suffer a stomach-ache, its original pain point is in your back. When you massage that point, it can release your stomach-ache. By 2007, Dr. Chang had found all the **17 OP regions** in whole body. The idea of OPT is to build up a patient's **healthy circulation** and **gain strength** by manipulating these points. Once the patient is stronger, the body system will be back to its daily routine and remove unwanted toxins as well as cancer cells, creating a **good harmony in the living system**. A person may still carry cancer cells but the cells stop growing and he/she no longer suffers from the illness. In this 2-day workshop, participants will learn both the theoretical concepts and the skills to apply OPT techniques. The speaker uses clear and easy to follow slide presentation and videos about cancer patients' experiences in the use of O.P.T.

Learning Outcome:

Participants will be divided into **groups of 6**, with an **instructor** who will guide and teach them how to **apply the hands-on skills and techniques**. This will enable the participants to apply OPT to daily living for **pain management, health maintenance** and **prevention** of illnesses. All it takes is a little effort with plenty of **self-love** and **discipline** to enable you to help yourself and others. Here are our Seven Steps of **Daily Self-Help** and Recovery:

1. **Belief** in your Innate ability to Heal
2. **Trust** OPT and **Massage** with **Love** and **Care** the appropriate OP (switch)
3. Drink **Hot Ginger Water** (Tea) to neutralize and remove toxins
4. Use a **Heat Pack** or **Warm Bean Bag** to enhance Healing
5. **Exercise** for 30minutes for good circulation to boost immunity
6. Be **Happy and Thankful** to your Higher Self
7. Share and **Teach** OPT to Family and Friends
