

EAT NATURAL FOODS TO STARVE & DEFEAT CANCER

Synopsis

Cancer remains one of the trickiest medical conditions to treat, with no clear solution or completely effective treatment. Because it strikes so many people, it has also been the subject of countless studies. Despite so much of confusion about the **role of diet** in cancer; some foods have been **repeatedly identified** as being effective at **killing cancer stem cells** thanks to a huge body of research.

*An important scientific study identified thousands of **natural compounds from foods** that have demonstrated anti-cancer activity and have been **proven to target and kill the cancer stem cells** which lie at the root of cancer malignancy.*

This workshop is the culmination of Dr. Christine Gonzalez's 28 years of experience, studies, research, and the experience of her patients who she has guided. In this session, she uses **hard science** not guesswork to help us learn the power of all the **different compounds** and **bioactives** in food that will help us **prevent, control and defeat cancer**.

Christine E.V. Gonzalez, NMD, PhD

Doctor of Naturopathic Medicine/
PhD, Health & Human Sciences/PhD,
Environmental Sciences USA.PHIL.
FRANCE

About Speaker:

Dr. Christine is a born naturalist with more than twenty five years of **practice, research and education** in Natural, Integrative and Functional Medicine/Nutrition. Before setting up the **Wellness Institute**, Manila in 2001, she practiced in her two clinics in Silicon Valley, California. Dr. Christine maintains clients in the US, Canada, New Zealand, Guam, Australia, Hong Kong, Singapore, Malaysia, Myanmar, Philippines, Sweden and Spain.

Dr. Christine's work has leaned more and more towards the **treatment of chronic diseases**, especially cancer and auto-immune diseases. Early in 2008, the need for a solution to the current worldwide cancer crisis led her to dedicate her life towards cancer prevention and control through **health education**. In the same year, she opened a disease prevention facility in Lourdes, France and continues to lecture worldwide on "Prevention, Management and Control of Cancer and other chronic diseases."

Learning Outcomes:

1. Mastering our own **body's defence systems** to control and defeat cancer
2. What to feed your body's defence systems and **starve the disease**
3. Know how to harness the incredible **healing power of nature** through whole foods
4. **Real-life** case studies
5. Summary, Conclusion and Q&A

CANSURVIVE & ITS PURPOSE

Cansurvive is a support and information service for those who are challenged with cancer. Not just information and support, but a service that offers a greater awareness of the benefits of holistic, non-invasive cancer therapies, nutrition and diet, as well as orthodox treatments; what is available and where to access them. It is a window of light into the world of healing, where the word "**Terminal**" is a **challenge, not a death sentence**.
