

## An Energetic View On Cancer

### Synopsis:

If there really is a miracle cure for cancer patients, it is energy "therapy". Being capable of letting energy flow freely, which always is connected to (personal) happiness, satisfaction, setting goals and positive thinking. The only way to reach the point where energies again flow freely, is to start exploring who we are and have no fear of changes.

We all had an upbringing, that programmed our subconscious mind to perceive live in a certain way, where the foundations for our thought structures was laid, and made us the person we are today, which has resulted in the fact that they have cancer.

### Learning Outcomes:

This webinar will teach you how to look at your life differently, understand the law of cause and effect, and how to "reprogram" these old programs and make necessary changes.

Consequently the introduction of changes takes on major significance for people with tumors. Unfortunately, no doctor in the world can tell us which changes are necessary in our life and how we can find out, what's good for us. We are the only ones who can.

This webinar will teach you how to look at your life differently, understand the law of cause and effect, and how to "reprogram" these old programs and make necessary changes full heartedly.
