7:30am

**Professor Dr Shahrul Bahyah Binti Kamaruzzaman (Malaysia)**
Considerations In Management Of The Older Cancer Patient

Professor Dr. Shahrul Bahyah Kamaruzzaman is a Consultant Geriatrician and Deputy dean of Postgraduate studies at the University of Malaya. She returned to Malaysia in 2002 after her geriatric training in Wales, United Kingdom, to serve as Senior Lecturer in the country's first Geriatric unit.

Dr. Shahrul played a key role in the training and refining of the geriatric multidisciplinary team as well as the acute geriatric care services at UMMC. Both her training in geriatrics and PhD in epidemiology have been useful in her research activities.

Her clinical and research interest is in acute and rehabilitative care of the elderly, frailty, sarcopenia and dementia. She is a founder member of the Ageing and Age Associated Disorders Research Group in University Malaya as well as the Malaysian Society of Geriatric Medicine; a council member of Gerontology Association of Malaysia and current President of the Malaysian Healthy Ageing Society.

**Dr Radha Krishna (Malaysia)**
Genes, Epigenetics And Cancer

Dr. Radha Krishna completed his Bachelor of Science from Andhra University in 1977, followed by a Medical degree (MBBS) from University of Bangalore in 1985. He has been practising in Kuala Lumpur for the last 35 yrs, rendering his services at the following hospitals:

1. Tengku Ampuan Rahimah Hospital, Klang. | 2. Hospital Daerah, Tanjung Karang. | 3. Banting Hospital, Banting.

Currently, Dr. Radha is attached to Hospital Bersalin Razif in Klang.

**Professor Dr Avni Sali (AM MBBS PhD FRACS FACS ACNEM) (Australia)**
Role Of Integrated Medicine In Preventing Cancer

Founder and Director of the National Institute of Integrative Medicine (NIIM), Melbourne, Australia. He is the former Head of Graduate School of Integrative Medicine, Swinburne University and the University of Melbourne Department of Surgery, Heidelberg Hospital, Melbourne. Prof Sali has pioneered leading research and education in the field of integrative medicine. His clinical expertise is in integrative medicine, including looking at the cause of disease. His special interest lies in cancer, chronic illness, and other difficult health conditions.

His lifelong work has been the promotion of bringing evidence-based Integrative Medicine into the mainstream medical model - to become the medical paradigm of healthcare.

In 2016 Prof Sali was honoured with an Order of Australia for "significant service to integrative medicine as an educator, clinician and researcher, and to professional education".

**Professor Dr Koshy Philip (Malaysia)**
Human Microbiome And Cancer

Professor Dr. Koshy Philip completed his Ph.D. in 1985 majoring in Microbial and Pharmaceutical Biotechnology and soon after started his research and teaching career in Malaysia. He later joined Ongcare Pharmaceutical as a Consultant Biotechnologist researching and scaling up nutraceuticals and biopharmaceuticals with international operations.

In 2000, he was awarded an International Visiting Fellowship under the U.S State Department on "Biotechnology & Sustainable Development". Currently, he has a collaboration with the Lawrence Berkeley Laboratory and the University of Iowa to elucidate novel antimicrobial peptides in pharmaceutical and food applications.

In 2004, Koshy Philip joined the Medical and subsequently Science Faculties of University of Malaya as an Associate Professor teaching and researching in Molecular Medicine, Pharmaceutical Microbiology and Biotechnology in Human Health. He has been the Principal Investigator of two high impact research grants apart from several other grants including studies on the variation of microflora in the human oral ecological niche and the gastrointestinal tract.

**Professor Dr Nathan Vytialingam (Malaysia)**
Caring for Carers

Dr Nathan Vytialingam is a graduate from the British College of Occupational Therapist in 1976. He worked in London, Singapore, Australia and Malaysia and is currently recognised in Physical Rehabilitation that covers the functional and clinical evaluation on orthopedic, trauma and elderly care, emphasising in occupational outcomes.

His notable achievements include organising the 1st Asia Pacific Congress in Occupational Therapy in 1995 in Kuala Lumpur that created an impact for Malaysia and being the Organising Chairman of the 1st World Congress on Healthy Ageing in 2012 (Malaysia). He is the present Advisor of the Malaysian Healthy Ageing Society.

Currently, he is the Dean of the Perdana University School of Occupational Therapy. Under his leadership, he established a 4-year degree programme and an upgrade degree programme for practicing occupational therapists. This has been accredited and approved by The World Federation of Occupational Therapists.

**Mr Thomas Bach (Germany)**
Salutogenesis And Cancer

After graduating from naturopathy in 1994, Thomas Bach bade farewell to the civil service and has since played roles that include being a psycho-oncologist, systemic consultant, a Qigong therapist, a lecturer and a trainer.

In March 2021, he took on the role of CEO of a company that he started to provide holistic support for people with cancer and all those who come in contact with them. As the mastermind behind much of the content in the programme, he also plays the role of Training Manager for the German presence and online training as a Psycho-oncological Consultant.

Thomas has always been aware of the connections between body and mind, for even as a child, he found he was able to influence his body through mental techniques. From 1993, he was able to research this further in the Vita Natura Clinic, Eppenbrunn, by working with over 4,000 cancer patients and developing techniques that support the healing process.

**Dr Thrivikraman Veluthat (India)**
Role Of Panchakarma (Detoxification) In Prevention Of Cancer - Ayurveda Approach

Dr. Thrivikraman completed his B.A.M.S. degree from The Ayurveda College, Coimbatore where the science was taught in a gurukula method (a type of residential school in India with pupils living near the guru) under the guidance of Dr. P.R. Krishnakumar.

Dr. Thrivikraman then underwent further training in the treatment of Mental Health Disorders for a year followed by extensive exposure in the field of Ayurveda for four years. He also mastered Yoga from Acharya, Vasudevan Sir and the Shivananda Ashram in Rishikesh.

It was in 2011 that Dr. Thrivikraman founded his own Institution named 'Swetarama Ayurvedasram' - an Ayurvedic home hospital in his hometown of Tirur. Currently, he also runs an Ayurvedic production unit by the name of Chethana Medicaments in Perinthalmanna, Kerala.

**Dr Krisna Veni Balakrishnan (Malaysia)**
Cancer Causes: Environmental Factors Carcinogens in our Food Today

Krisna Veni Balakrishnan obtained her Degree in Biomedicine from Management Science University (MSU) in 2008 and a Master's Degree in Transfusion Science from Universiti Sains Malaysia in 2013. Between 2008 till 2012, she lectured at MSU in the field of Medical Lab Technology, Occupational Health and Medical Assistant.

Since 2014, she has been attached to University Malaya Medical Centre (UMMC) in the Clinical Investigation Centre as a Manager. Krisna is also a sub-coordinator for Masters of Health Research Ethics (MOHRE) in University Malaya and is involved in development of the country guidelines for conducting clinical trials in drugs, medical devices and cell and gene editing therapy.

She has been a volunteer at the Natural Kidney Foundation (NKF) from the year 2012 to 2013. She jumped on board the CanSurvive Support Group in 2019, volunteering her services as Team Coordinator, CanSurvive's Health and Living Experts. In 2020, she was a speaker in CanSurvive's 9-Pillars for Well-Being Forum, addressing participants on Specific & Root Causes for Cancer.

**Ms Amy Tan (Malaysia)**
Role Of Physical And Mental Stress In Cancer - Prevention And Management

Amy is a somatic movement educator and therapist who has been in practice for almost 20 years and has worked with children, adults and senior citizens in multiple conditions from injuries, illness, high performance sports and trauma.

Beginning her journey as a Certified Pilates Teacher, she established one of Malaysia's pioneering Pilates studio in Kuala Lumpur in 2004 specialising in remedial and rehabilitative approach. She then trained at the European Pilating Association in Munich to be a Certified Rolfer.

She dedicated many years to deepen her knowledge and training in the somatic field with further studies internationally.

Amy is committed to guide, support and teach everyone who is seeking to cultivate a more wholesome life along with more meaningful ways of being and presence in their lives through rekindling with their body, anatomy and its sensations.
